

JOHN HALL ADVISORY

Operator Readiness Brief

Portable systems, margin discipline, and staged-change plan

Built for founders and operators who need a sharper operating backbone.
This brief pairs federal-change planning, system portability, COA discipline, and practical advisory engagement logic.

SERVICE LINES

4

Startup, cultivation, profitability, and position

READINESS PILLARS

4

Portable systems, brand clarity, data, staged

UPDATED

March 25, 2026

Aligned to the current site and advisory structure

READINESS CHECKLIST

What to tighten first

- Document SOPs and quality handoffs
- Match COAs to product and batch detail
- Sharpen packaging and retailer materials
- Plan for staged change, not one final switch
- Protect margin discipline before the market

PRACTICAL ADVISORY LANES

Where John Hall plugs in

Startup and launch advisory

Cultivation systems review

Profitability and turnaround support

Brand and market positioning

Best next step: frame the bottleneck clearly, then route the work through advisory
